EXEMPTION FROM PILOTAGE DUES.

[BY TELEGRAPH.]
(FROM OUR CORRESPONDENT.)

NEWCASTLE, THURSDAY.
The question of exemption from pilotage has lately caused some commotion in shipping circles. The Government having been deprived of much revenue from pilotage, and being anxious to secure more revenue by placing on ships' articles for the purpose of bringing such vessels into port, and thus saving the owners the expense of pilot's dues, the Marine Board of New South Wales has issued a new regulation, whereby all foreign vessels must be provided with a certificate approving of the vessel's master or owner of any vessel to enable pilotage or harbor dues shall have full pleasure certificate approved or revoked. A test can be applied to "bring forward" in that of the steamer Walatoka, Lieutenant G. Banks, R.N., commander, which arrived yesterday from Melbourne under a cargo of fruit meat. Lieutenant Banks did not exempt, but Coast Pilot McLaughlin, who holds an exemption-from-pilotage certificate, was placed in the Sydney Marine Board office. The law states that port fees of pilotage fees, thus saving the owners the cost of pilot's dues, will be paid by the State at the local marine board, and the secretary, Captain Withell, has intended to communicate with the Sydney Marine Board, and suggest that they advise in the matter. The local Marine Board, however, refused to do so, and the day following evening to proceed against Pilot McLaughlin, of the steamer Walatoka, for claiming exemption from pilotage dues, and stating that he knew that he is the bona fide master of that vessel. CROWN LAW OFFICERS V. THE GOVERNMENT.

GOVERNMENT DEFEATED BY 11 VOTERS.

The acceptance of briefs by the Attorney-General and the Minister for Justice, and the subsequent action taken by Messrs. Proudfoot and Co. against the Railway Commissioners, has resulted in the overthrow of the Government. From the time that the Government was defeated in the House, a few members of Parliament attempted to justify the action of the Crown law officers. On behalf of the Government it was contended that the Government was not bound by the action of the Government, and that the acceptance of briefs against the Commissioners by members of the Government was sanctioned by custom. The Government refrained from manifesting any sympathy with this view. One who had been a most loyal supporter and last night to a number of prominent members of the Government, the matter was such that he dare not support them. If he did so he would not be true to his constituents. The whole question was put to a vote in the Legislative Assembly last night, moved by Mr. Lee. Early in the evening the intelligence gained currency that a most successful motion had been made, with the result that it was not possible to avoid the conclusion that the motion would prove disastrous to the Ministry. The proposition was carried by a large majority, and about eight; but when the division was taken, shortly before 11 o'clock, it was seen that 117 members of the Government and 11 members of the Opposition were present, with the result that the Government was defeated by 11 votes.

THE MINISTERIAL POSITION.

Mr. George Dibbs, when seen after the division, declared emphatically that the Government had decided to resign.

"You can just go to a place lined up with hot brim. I have nothing to tell you."

"But what are you going to do, Mr. George?"

"I am going to see what the Opposition has to say."

Thus turning to some supporters who had come up to console with him on the disagreeable turn that affairs had taken, he exclaimed briefly, "Not at all; I am going to see what the Opposition has to say. It keeps one's wits in order."

The other members of the Ministry declined absolutely to say anything on the matter.

Several of the members of the Government and a number of their supporters went into one of the Ministerial rooms. An animated conversation ensued, but it was ended afterwards on the understanding that no further action was to be taken. The whole situation will be considered at a Cabinet meeting which is to be held to-day, and it is understood that when the House meets to-morrow the Government will make an announcement as to the course the Government intends to pursue.

MR. REID'S OPINION.

The leader of the Opposition, on being spoken to by a representative of the Herald, said not to be contented with the result of the division, but that he ought to do under the circumstances. If the question were put to him, he said, as to what the Government would do in the matter, he had not been asked for an opinion, and he would not give one. His opinion that the Government would remain in office. Further than this, that, although the Government had received the most crushing defeat in the history of the House, he did not believe that the House would elect the Opposition to the Government. He said that he was not sure that the Government would be able to carry out its policy, but he was not sure that the Government would be able to carry out its policy.

MR. MILLIGAN'S VIEW.

Mr. McMillan, when seen after the division, said that he was not sure that the Government would be able to carry out its policy, but he was not sure that the Government would be able to carry out its policy.
